CyberPower

Essential Series CSB808

Offering vital surge protection for common home & office electronic devices.

The CyberPower Essential Series CSB808 Surge Suppressor is ideal for Home/Office protection with 1800 Joules, 8 outlets, and an 8 FT cord. The surge suppressor is ideal for protecting personal computers, wireless & VoIP routers, cable/DSL modems, printers, stereos, and other consumer electronics.

The CSB806 features eight (8) outlets with four (4) widely spaced outlets to accommodate transform sized plugs, MOV technology to guard the surge suppressor and connected electronics against line abnormalities and lightning surges, while EMI/RFI filters block unwanted line noise. The 8 Ft. power cord includes a right angle plug with a 45° off-set for convenient installation in the tightest of environments.

A Limited-Lifetime Warranty ensures that this surge suppressor has passed our highest quality standards in design, assembly, material or workmanship and further protection is offered by a $250,000 Connected Equipment Guarantee.
